

# COMMITMENT TO THE PLANET: OUR 2022 ACHIEVEMENTS

## Climate Action

### Renewable energy consumed

**100%** renewable energy consumed

### GHG emissions and carbon footprint (gCO<sub>2</sub>e/l bottled)\*

Goal 2025: **-15%** emissions GEI vs. 2018

\*Carbon footprint corresponding to scopes 1 and 2.

### Wineries for Climate Protection in Haro Certificate

**WINERIES**  
 for Climate Protection

## Circularity

### Water consumption (l water/l embotellado)

Goal 2025: **-15%** water consumption vs. 2018

### Recovered waste (recovered/recyclable waste)

Goal 2025: **0** waste

### 0 discharge into a public channel

Wastewater treated in our own treatment plant and discharged into at the Rueda winery and the vineyard

### Circular packaging

-9% weight bottle Ramón Bilbao Crianza 75cl. | -300 t glass/year | -160 t CO<sub>2</sub>eq/year

## Biodiversity protection

**100% natural fertilizer** of ovine origin, improving the quality of the soil

We installed **wooden nests** in Rueda to promote the breeding of goshawks

## Conscious suppliers

**100% local grapes** with Denomination of Origin La Rioja and Rueda

**100% FSC paper and cardboard** in advertising materials

Efficient and sustainable logistics model with the use of **reusable pallets**
